

## Provider Account Signup

Create a new account by enrolling in a Membership, Course, or a Group. Choose the best option for you.

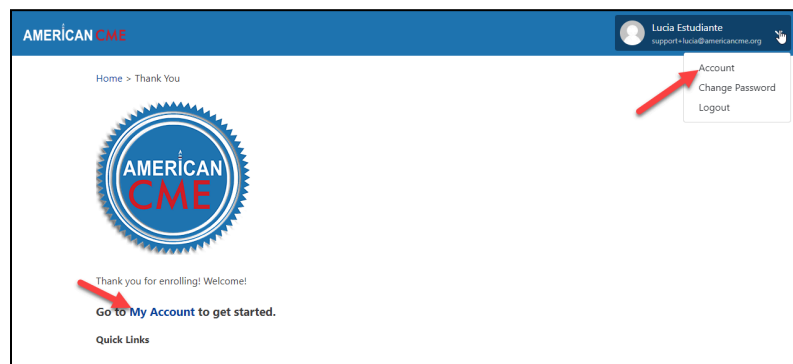

### Membership

Getting started with a Provider Account is a good idea because your profile will then be complete for easily enrolling in courses or groups later.

1. Click **Get Started With American CME** button or the **Memberships** link on the homepage.

2. On the Memberships page, click Provider Account and complete the enrollment form. On the Thank you page, click the Account or My Account link to go to your account.

### Course

Enrolling in your first course is another way to create a new account. Once you have an account, any additional courses you enroll in will be added to that same account.

1. Use the Courses link or menu to navigate to our course libraries.

## Provider Account Signup

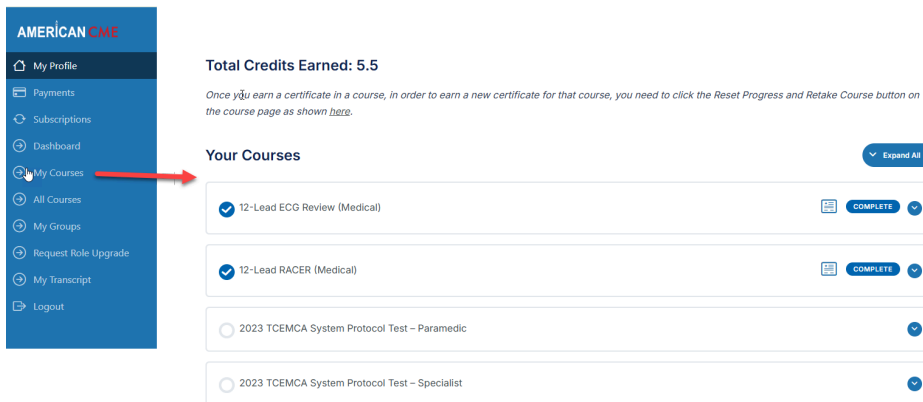

### Group

Enrolling in a “Group” (an agency account) is another way to create a new account. Once you have an account, you can join additional groups and enroll in courses. You can also leave a group and you will still have your same account. You just won’t have access to that group anymore, but you can still use your account for enrolling in courses or other groups.

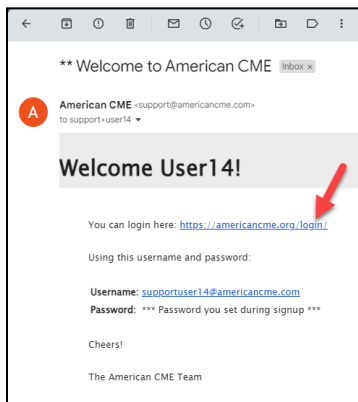

Enroll in a group using the link on the group page or by using the URL provided by your agency administrator (Group Leader). If your group leader added you to the group, you’ll receive an email from [support@americancme.org](mailto:support@americancme.org) to set a password.

### My Account

Once you enroll, your My Account page will be your hub for navigating the site. Here, you can edit your profile, access your courses, groups, transcript, and more. Go to All Courses to enroll in a course or go to My Courses to access your enrolled courses.

**Email notifications:** We will send your enrollment confirmations and course completion certificates to the email you used to sign up. Emails will be sent from [support@americancme.org](mailto:support@americancme.org). You are welcome to reply to this email if you need assistance.

**American CME Login Page:** To log into your new account, go to [americancme.org/login/](https://americancme.org/login/).
